WHAT IS COVERED?

Alignment

Ensuring perfect plank alignment and gap-free joins throughout the warranty period.

Stability

Full protection against lifting, buckling, or shifting caused by installation errors.

Finishing

Expert application of transition strips, baseboards, and technical trim work.

THE RAAW INSTALLATION JOURNEY

Acclimation

48-72 hours of climate stabilization for materials.

Subfloor Prep

Moisture testing and leveling to NWFA standards.

Precision Lay

Masterful installation with staggered joints.

Certification

Final walkthrough and warranty activation.

COMPLIANCE & STANDARDS

NWFA Compliance: We strictly adhere to National Wood Flooring Association guidelines.

Site Assessment: Mandatory humidity and moisture testing before every project begins.

Documented Quality: Digital records of all site readings to ensure manufacturer warranty validity.

Pro-Tip

Manufacturer warranties often require proof of professional installation and site prep. RAAW provides the documentation you need to keep your material coverage secure.

The RAAW Standard

We provide a full year of coverage because seasonal changes in Canada are the ultimate test for any floor. Our installations are designed to withstand the shift from winter dry to summer humidity, guaranteed.

PROTECTING YOUR INVESTMENT

Cleaning Essentials

Use pH-neutral cleaners specifically designed for your floor type. Avoid steam mops or excessive water on hardwood and laminate surfaces.

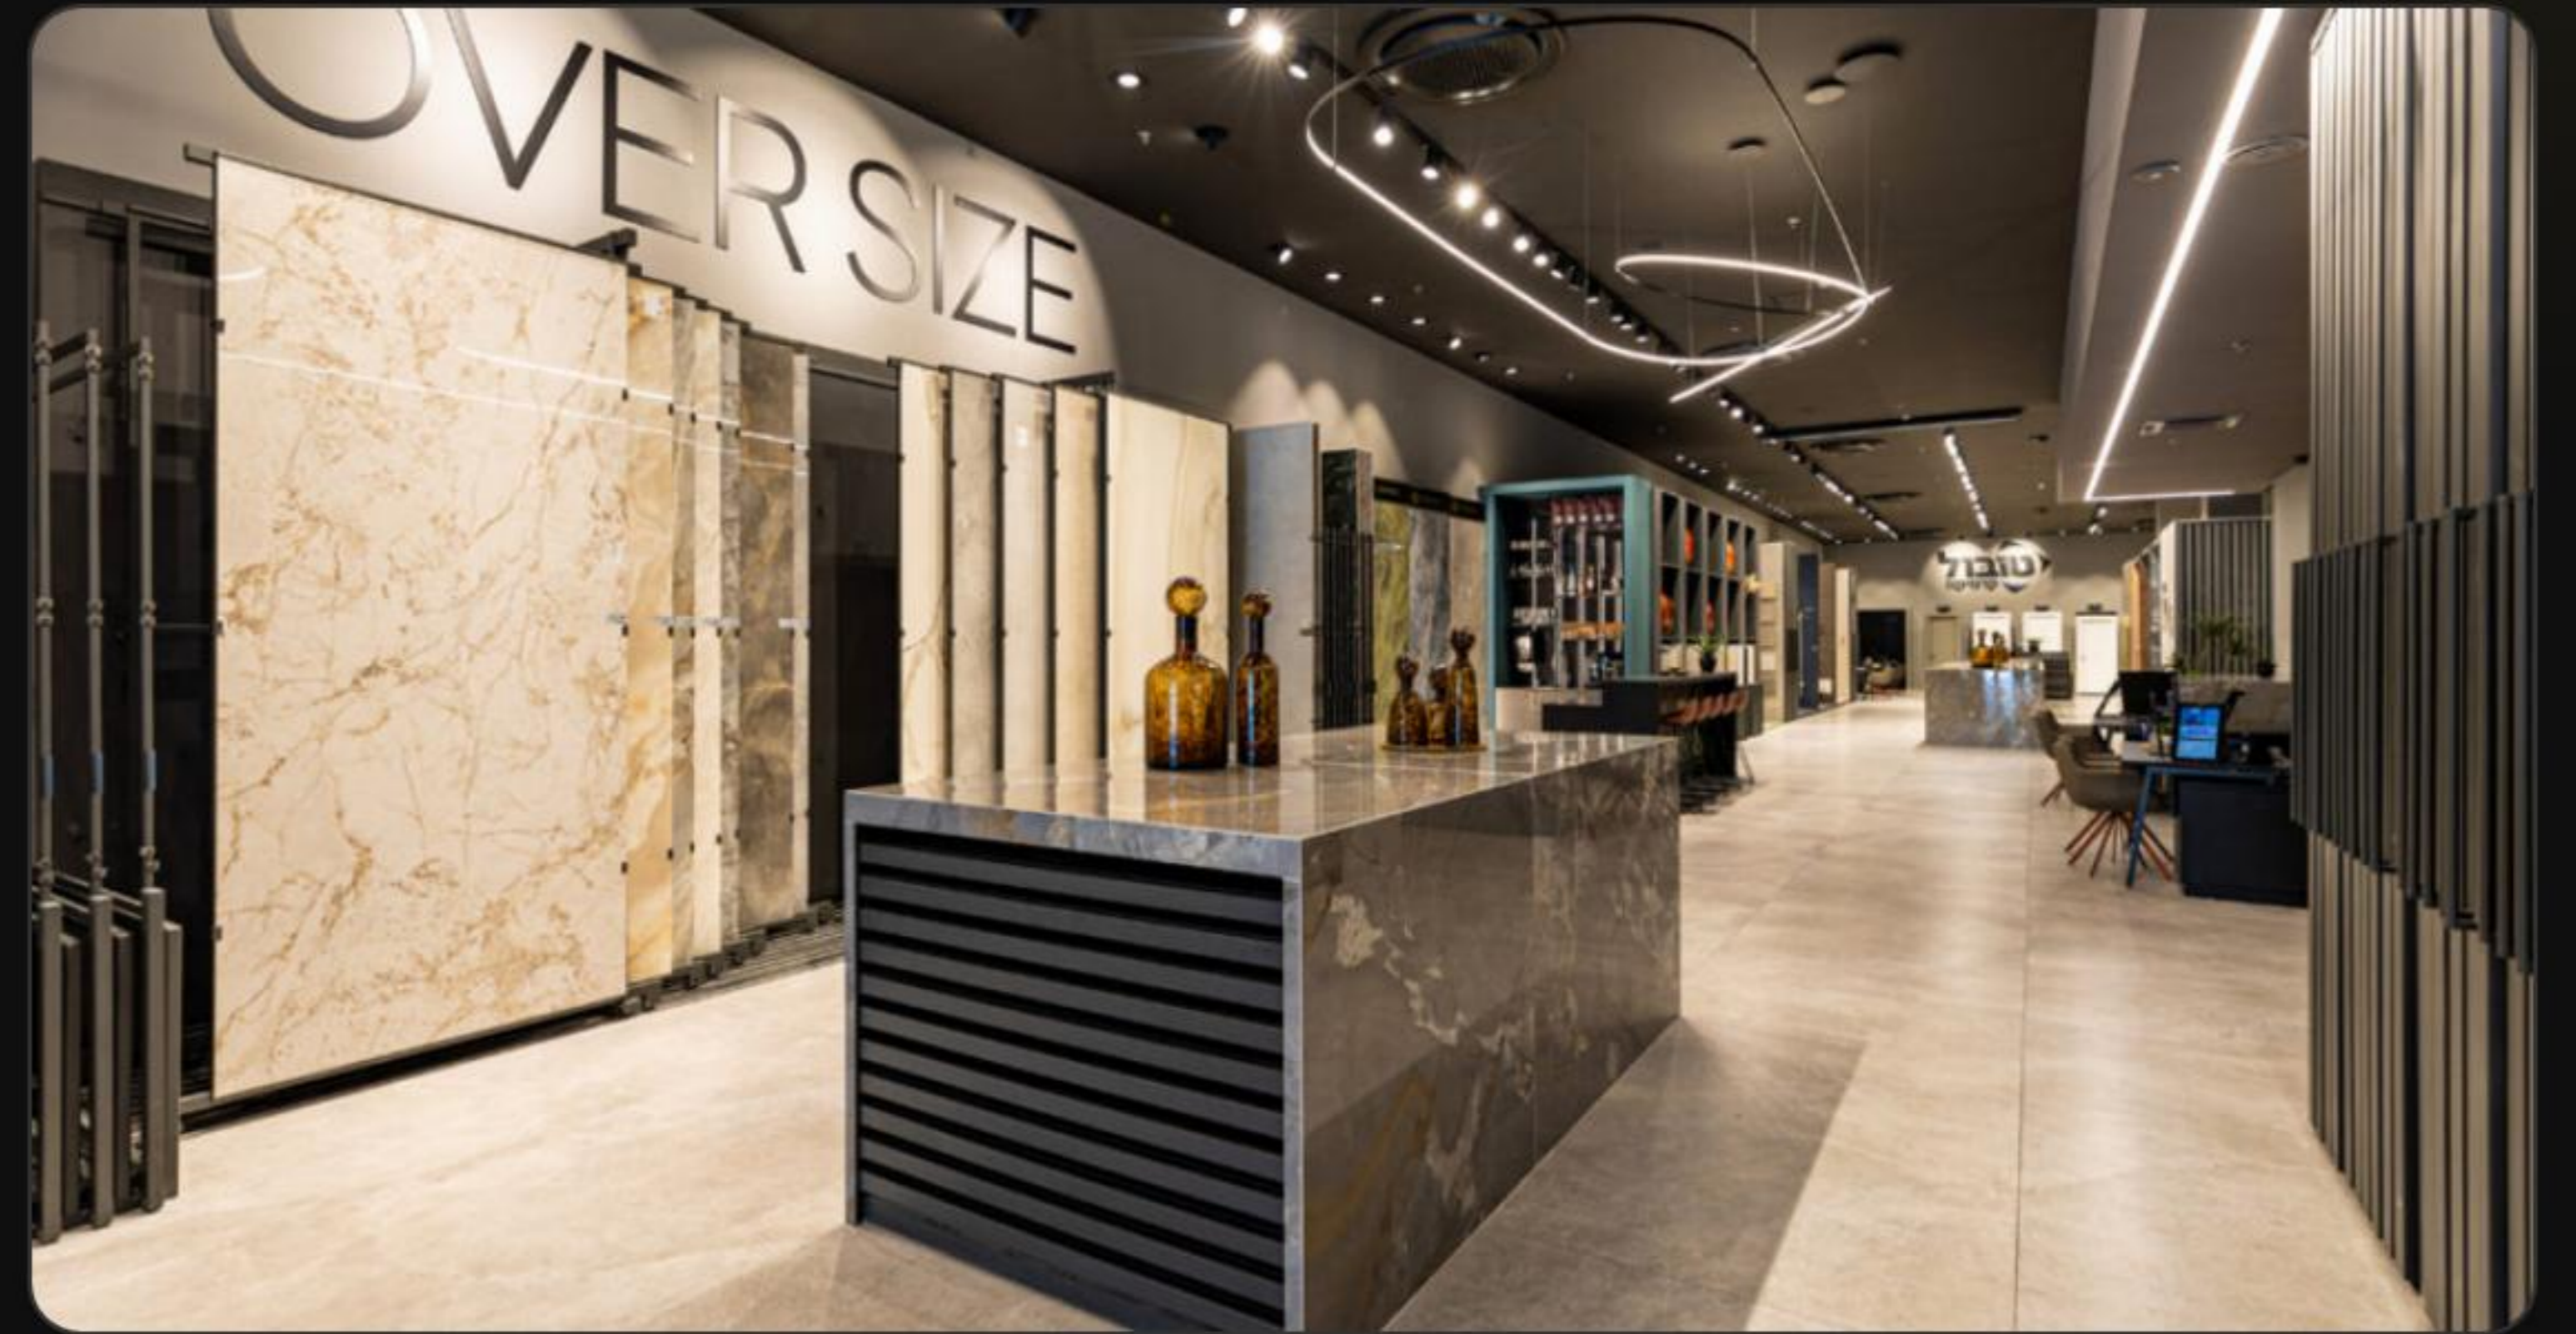

Climate Control

Maintain consistent indoor humidity levels (35%-55%) to prevent natural expansion and contraction of wood materials.

PROJECTS BACKED BY RAAW

Residential: Luxury Vinyl Plank

Commercial: Large Format Tile

"The 1-year warranty gave us the confidence to choose RAAW. Their attention to detail during the install was incredible, and knowing they stand by their work for a full year is rare in this industry."
